THE PACKARD SIX... L as easy to own as a lesser car - and we will gladly demonstrate it

Perhaps you, too, are putting up with the disadvantages of a lesser car when at no greater cost you might be enjoying the beauty, comfort and performance of a Packard Six.

Many motorists are-but by no means all of them.

Tens of thousands have learned that Packard Six transportation, figured on a dollars and cents basis, costs no more than they are accustomed to payand that the luxury and distinction of Packard ownership are the added rewards of their good judgment.

We can show you in a very few minutes with paper and pencil how financially easy it is to own and operate a Packard Six.

With the cost records of your present car we can establish in black and white that over a period of years the Packard Six costs no more per mile, per day,

Our figures are based, of course, on the long and trouble-free life of the Packard Six—for statistics prove that the average Packard Six owner keeps and enjoys his car far longer than lesser car owners keep theirs.

Of course the first cost of a Packard Six is higher. But it costs no more for Packard Six gas, oil, garage and tires, but little more for license and insurance—and appreciably less for Packard Six maintenance and repair.

The actual figures will surprise you for they indicate conclusively that Packard Six ownership costs no more in the long run than the buying and trading in of a compromise car every two years or so.

When may we appraise your present car and tell you of the convenient time payment terms on which your Packard Six is available?

Among other things to which the United States now may claim world leadership—if she chooses—is calamities.

This fact has been established by statistics and studies prepared at Geneva in anticipation of the launching of the League of Nations's new international relief upion for disasterstricken nations.

The union will constitute a sort of international mutual aid society against-"acts of God."

The statistics cover the fears from 1924 to 1927 inclusive and include only "acts of God."—carthquakes, volcanic eruptions, landsfides, floods, cyclones, tornadoes, hurricanes, typhoons, drouth, tidal waves, famines, fires, grasshoppers, plagues and avalanches.

For these years the United States easily led the world with 76 calamities: Italy came next with 66; then Japan, 57; Spain. 48; Germany, 37; France, 34; Serbia, 30; Russia, 29; England, 25.

The investigators concluded on the basis of their finds that the United States, Italy and Japan always will lead the world in such matters.

From the standpoint of continenetal distribution, however, Europe leads with 372 disasters, followed by Asia 144; North America, 12; South America, 55; Central America, 25; Africa, 49; Oceania, 51.

The King Is What the Peasant Would Be If the Peasant Were a King -By Robert Quillen -

In a certain land there was a king who felt very important. He required his subjects to kneel as he passed by on the street; when he was best and to be as graceful as possible. Out of humor he swung a royal whip and kicked his personal servants down stairs; and whenever he had a headache after a night of wassail and song, he hanged anybody who contradicted him. Nobody like him, but

the thing that made people hate him most was his arrogant way of treating inferiors like so much dirt. "A king," people said, "should be humbled by his great power, and not childishly abuse it."

So they appointed a committee to wait on him and suggest that he reform before some outraged subject slipped a knife between his ribs. The committee contained a millionaire, a lawyer, a woman, a were. A horse is the nearest thing to a human there is, and he out to a human there is a huma

Glisson, under indictment for murgher in connection with the negree's death. Ward and Glisson based their plea for release on habeas corpus proceedings on the contention that proof of their guilt was not evident and that the presumption was not evident and that the presumption was not great. They also attacked the legality of the grand jury which indicted them, but this phase was not stressed as the court previously had dismissed a similar contention brought in behalf of H. Leslie Quigg, chief of police, and the executive mansion.

Mabry did not possess a pistol, his widow testified, adding that he was searched carefully by the officers be-fore he was taken away.

Georgia Town Threatened By Smallpox

Claxton. Ga., April 3.—(P)—Pubic assemblies have been forbidden and hurches and theaters closed here while authorities endeavor to prevent an epidemic of smallpox.

Orders for compulsory vaccination have been given following physicians' reports of seven cases in the city limits and six in the rural districts of

the county.

The first case appeared two week

ago, but its course was comparatively mild and the victim went voluntarily into quarantine.

Schools have not been closed because physicians reported few children were found not to be vaccinated. The remainder were given the inoculation

that make every mile a pleasure

Day after day, the nationwide demand for the Bigger and Better Chevrolet reaches more impressive proportions—and day after day it becomes increasingly more apparent that this unrivaled popularity is due to the car's basic elements of superiority.

Power, speed, smoothness, comfort-the Bigger and Better Chevrolet combines them all to a degree previously associated only with cars costing hundreds of dollars more.

But the greatest factor of all in the car's sensational popularity is the effortless driving

it provides. It steers with the weight of the hand-for the worm and gear steering mechanism is fitted with ball bearings throughout . . . even at the front axle knuckles. The clutch is velvety smooth in action and the gearshift lever responds to the lightest touch. Acceleration is swift and certain, while big non-locking four-wheel brakes assure perfect

control under every condition of highway and traffic.

You'll never know what a great car it is until you sit at the wheel! So come in today for a demonstration.

must be very big."

"Big!" exclaimed Scrapper. "Why, for his size, Banana Bill has the biggest bill of any one I know. It is so big that you wonder how he can-hold his head up. It is so big that the first time you see him fly you expect to see him tumble heels over head. It doesn't seem as if he could possibly carry such a bill. But you know things are not always what they seem. He tells me that that great big bill of his isn't heavy at all. It looks heavy, but it isn't."

"I said to him one time, 'Banana Bill, it makes my neck ache just to look at you.' He gave me such a funny look of surprise. 'Why?' he asked. 'Because,' said I, 'that bill of yours looks as if it must weigh almost as much as you do.' It was then that Banana Bill opened his mouth and showed me that that bill really is quite light; and it was then that I saw his queer tongue."

"I suppose," said Bobby Coon, "you are going to tell me that Banana Rill is another who has a long tongue." "No," said Scrapper, "his tongue is no longer than his bill. In fact, it isn't quite as long as his bill. That is fairly long, but it isn't like one of those long tongues that can be run away out of the mouth. No, it isn't the length that makes his tongue queer. It's the shape of it. I have seen many kinds of tongues but never one like the conof it. I have seen many kinds of tongues, but never one like the one Ranana Bill has inside that big beak of his. It is like a feather."

"French women have commercialized it.

"The women of today have entered into sports, travel and business.

"The women of France have met the fact in terms of modish, simplified, appropriate models."

This is the opinion of Mme. Lucile Mauclaire, popular stylist of Paris and New York, who presented Tuesday afternoon at a style show at Chamberlin-Johnson-Dubose company her latest innovation in women's apparel, the singlette, novel undergarment, which was artistically exploited by graceful models. The garments were especially designed to meet the demand of the American women for simplicity, freedom and grace.

Stylists in outer apparel are usual, but a stylist for underwear is novel indeed. A tight fitting model of glove silk, a complete ensemble, snugly and faultlessly cut, taking the place of perhaps two or more garments, is the contribution of this popular French stylist to the grace and beauty and charm of the women of today.

Mme. Mauclaire was born in Paris.

Folks are amazed at Ironized Yeast. They see 5 to 15 pounds gained in 3 weeks! Skinay limbs covered with rounded, graceful fiesh! Ugly hollows in shoulders filled up! Ryes sparkling with health. They ask—how does Ironized Yeast work so quickly?

How Ironized Yeast Builds Quick Flesh and Health

Quick Flesh and Health

Ironized Yeast is two tonics in one—weight building Yeast and strengthening Iron. The yeast is the same used in making malt, and which makes malt so beneficial. It is specially cultured yeast, concentrated to give the utmost in flesh-producing value.

This Yeast is treated with pure, vegetable iron, the same as ir spinach, lettuce and celery. In this form Iron is easily assimilated by the body, making rich, red blood and toning up nerves and muscles.

Only when Yeast is Ironized in this way is it more effective—for Iron is needed to bring out the weight-building, strengthening values of Yeast. By this special formula Ironized Yeast fives you results in half the time required by yeast or iron taken separately.

If you are underweight, nervous or tired, you need Ironized Yeast. Start it today. It does not cause gas or bloating. Safe for everybody—containing no harmful drugs. Pleasant-tasting tablets in a handy bottle.

No car in the Victory price class can match the all around brilliance of Victory performance.

The Victory is first at the get-away and first on the straight-away-faster on the hills, faster in traffic-smoother on rough roads.

And accelerates as no other car at the price has EVER done: 5 to 25 miles in 71/4 seconds! 10 to 45 miles in 131/2 seconds!

The public discovered all this even as the stop watch proved it.

More power per pound of car weight made it possible. Rugged Dodge construction made it practical. And the Victory's unusual design made it SAFE.

For the Victory gravity center is lower and there is no body overhang The chassis frame is the full width of the body-and the body sills are eliminated.

Exceptional charm of line and more headroom and seat width are further vital results of this unique construction.

Eather Rows, a young agrae, having accompanied an invalid from the United States to Cannes on the Riviera, is about to return to New York when she sees an advertisement in the paper for a nurse and doctor's assistant and she decides to apply for the job in writer to spend a little time-in Cannes.

While waiting for an sanswer to her application to Dr. Nartorius, Esther treats herself to tea at the fashionable Restaurant des Ambassadeurs. She becomes interested in the canversation of a beautiful French woman and her escort, an Englishman, who sit at the next table. On returning to her hotel Esther finds a note from the doctor asking her to report in the morning.

The beautiful Vrench woman of the restaurant comes to see Dr. Sartorius and Esther learns that she is Lady Clifford. A few days later her husband, Sir Charles Clifford, is atricken with typhoid tever and Dr Sartorius gives up his practice as a day nurse. Roger Clifford, Sir Charles only son, arrives in Cannes. Sir Charles tells his son that he has changed nis will to the extent of making him executor and trustee of the whoic estate. Roger is attracted to Esther and invites her to dine and dance with him. They go to one of the fashionable restaurants in Cannes.

On reurning to the house Roger comes upon his stepmother in the darkened drawing room with Arthur Holidday, who has been paying Lady Clifford some attention. Roger orders Holliday to leave the house.

The next day Sir Charles breaks the news to his wife that he has named his son executor of his estate in his will. Lady Clifford flies into a rage.

Shortly afterward Roger complains of a headache, and his aunt, Miss Clifford, offers his hand. Esther is called in to bind up the cut and in her haste she mislays the doctor his podermic needle, which he has just used on Sir Charles. The doctor is unwarrantably agary with her over this carejessness. Two days later Sir Charles has the disc. Esther findishin seedle, which he has just used on Sir Charles. forcibly impressed by the old man's words and serious manner, Roger looked and discovered a bottle of Evian water standing on the tiled floor a few feet away. He picked it up and set it high on a shelf over the basin, then quickly closed the door and stood with his back against it.

"Release her ladyship, Chalmers," he ordered sternly, "and let me hear the reason of this extraordinary behavior."

The old man, who was recovering his poise, coughed apologetically.

"I know how it must have looked to you, sir, but, believe me, I had a good reason. Perhaps you can persuade her ladyship to tell you what she was about to do with that bottle of mineral water when I came in and caught her at it?"

The cry that burst from Therese's lips was like an angry snarl.

"Mineral water! What is the creature talking about, I should like to know?"

"Yes, sir. You may believe or not, sir, but I should say there was something in that bottle her ladyship would like to get rid of."

"What gave you this idea, Chalmers?"

"The nurse, sir," was the prompt reply. "There's something serious behind all this business, and it's my opinion the nurse knows."

"Take the brandy to Miss Clifford, Chalmers. I will stay here a moment."

He stood aside to allow the butler to pass, then, shutting the door again, turned resolutely to Therese, trying to conceal from her the quandary in which he found himself.

"Tm afraid this requires an explanation," he said to her, coldly, "A little while ago Miss Rowe made a terrible accusation concerning you and Sartorius. "What a you do with what she told me. What's lyzed with what she told me. What's more, I could take my oath she's as sensible as you or me, let them say what they wil?"

The old man's habitually wooden face showed deep emotion.

"See here, Chalmers, lock the door of my room and bring me the key. We'll see that no one gets in there to tamper with that bottle, just in case there's anything wrong."

He entered the boudoir, confident of finding his aunt in charge of the situation. The next instant he cursed his folly

"A little while ago Miss Rowe made a terrible accusation concerning you and Sartorius. I begin to think her statement has got to be investigated. I am giving you a chance now to explain matters."

"Investigated. Are you serious? Surely you saw for yourself that the girl is out of her senses?"

"In view of what Chalmers has just told me, I am not entirely sure.

"Absurd! Why, the doctor said before she left that he considered her abnormal. I am sure I have no idea what mad story she has invented, but as for taking her seriously—"

"Very well, then, tell me what you were going to do with that water. Why were you trying to throw it away?"

"Don't be ridiculous, Roger. Where is your sense of humor? I wasn't trying to throw anything away. I am my room—"

"And why were you sure there was none in my room—"

"And day were not doing something to keep her unconscious?"

For instance, the Ipana Troubadours predict April showers at 8 o'clock. We don't believe the weather man too much, but this time we are inclined to think the Troubadours will bring some moisture, not that we expect them to be all wet, far from that. Let's see what they will offer. "Hurray, Hurray, It's Ray, Ray, Raining," April Showers," "Whether It Rains, Whether It Shines," "Rain or Shine," vocal specialty of old-time rain numbers, "Let a Smile Be Your Umbrella on a Rainy Day" and "There Must Be a Silver Lining." Rather a precipitous offering, what? Then at 8:30 o'clock we will have the Goodrich Zippers, one of the oldest features on the air, and still one of the best. We miss many of the names with the Zippers of three years ago—but enjoy the newcomers as well we think. Neil Hamilton GRANDus 1 P. M. to 11 P. M. ago—but enjoy the newcomers well, we think. For the grand opera devotees and For the grand opera devotees and those who may not be so devoted but who appreciate the old masters, the National Grand Opera Ensemble will offer a tabloid version of Gounod's five-act opera, "Romeo and Juliet," over WSB at 9:30 o'clock tonight. The first act takes place in the grand ball of the Capulet's palace of Verona in the fourteenth century. In the second act is the famous garden scene, with Juliet on the balcony. The third act portrays the wedding of Romeo and Juliet in the cell of Friar Lawrence. The fourth act re-

There's something about the Cliquot Eskimos which is mighty pleasing. It may be the barks of the huskies, the tinkle of the bells about the necks of these Arctic dogs as they fly over the icy wastes, the banjos which these Eskimos always bring with them on Tuesday nights—but we believe their appeal, aside from the atmosphere of their broadcast, is in the sparkling, cheery music they always give us. We were glad when they came to Atlanta. It was too Tuesday night was another half hour of tingling music.

DAVIS CUP-IS SAFE IN FRANCE ANOTHER YEAR, SAYS CARY

After viewing the strenuous efforts of certain young men week before last on the tennis courts of the Augusta Country club in their initial patriotic endeavor to make the Davis cup unsafe for France during the coming assault, your correspondent is forced to several unhappy conclusions. First, that there appears little need of appointing a committee to welcome the cup back to these shores this year. Second, that this country, with the single exception of Junior Coen, is in the throes of a decidedly bear market as concerns rising tennis players of Davis cup caliber, and, third and last, that Old Father Time has, at last, begun to call a halt to the court activities of one William T. Tilden II. remarks constitute treason in the eyes of the United States Lawn Tennis association, your correspondent pleads guilty.

Having been fortunate enough to the year Tilden, Johnston, Williams and Richards repelled the French at Germantown, and having witnessed the final round of the American championship last year at Forest Hills when Rene LaCoste denied Tilden's comeback bid, this writer has a slight background on which to compare the work of the French and that of the American who are this year going to work of the French and that of the Americans who are this year going to attempt to win back the most prized piece of silverware in the tennis world. It is true that Francis Hunter, number two in the national ranking and with Tilden holder of the American doubles champioship, was not in Augusta. It is understood that Hunter will probably not pla in any of ter will probably not pla in any of the American zone matches, but will certainly be available for the European zone play.

Outfield's TY REPORTS TO MACKMEN; WILL SEE ACTION TODAY

Philadelphia, April 3.—(AP)—Ty Cobb is on his job. The Georgia Peach, who denied reports last week that he has quit baseball, arrived in Philadelphia today and a few hours later was working out with the other members of the Philadelphia Athletics. As the American league star gamboled about with his team-mates in the bright, warm sunshine at Shibe park, Connie Mack looked on and pronounced Ty fit to play.

He said Cobb would appear in the game tomorrow against the Philadelphia Nationals in the series for the city championship.

New York, April 3.—(United News.)—Several National league managers have made the late, but rather startling discovery, that their clubs will open the season handicapped by the weak hitting of their outfielders. Having allowed Rube Bressler to get away to the Brooklyn Robins, Manager Jack Hendricks finds that the outfield of the Cincinnati Reds is devoid of punch. The Reds' outfield of Curtis Walker. Pid Purdy and Marty Callaghan hasn't been hitting its weight. Hendricks hopes the slump only temporary, and that the trio will start hitting soon. If not, there may be some changes made. Troubles.

The St. Louis Carcinals are having their outfield troubles and Manager Bill McKechnie may be forced to switch "Wattie" Holm 'c' to the outfield from third base.

Ray Blades is in the throes of a prolonged batting slump and may lose his regular place in the Cardinals outfield unless he recovers his batting eye soon.

Even the well-fortified Pittsburgh Pirates haven't escaped this seeming raled of batting slumps among outfielders.

Giants Trim Washington By 8-2 Count

Cohen and Terry Lead Attack With Willow for Nationals.

BY BEN COTHRAN.

Having spent Tuesday afternoon in vatching Muggsy McGraw's New York Giants defeat Washington's Senators by an 8-2 count, the Atlanta Crackers begin this afternoon a twogame series with Brooklyn, beginning at 3 o'clock.

Uncle Wilbert Robinson's team will come in as usual with a strong pitch-ing staff. Being an ex-catcher. Uncle Wilbert likes pitchers and his club always has them. Just to mention one. Dazzy Vance, National lengue strike-out king, is back this year with his fast ball and speeding curve ball.

Facing the Dodgers today will be at least two boys whom Robbie let go a couple of weeks back—Billy Rhiel and Max West, Rhiel at second and West in centerfield. Possibly one of the two will knock a home run, or something like it and win a ball game, just like Stuffy McCrone did for Macon last Thursday when the Crackers lost, 3-2, in the tenth inning. Cantankerous.

But it will be another big league team for our boys to face and with that victory over the Yankees Tuesday under their belt, they'll probably day under their belt, they'll probably be cantankerous this afternoon and cause some trouble to the Robins. They might even go ahead and beat the National leaguers. If they break out in a rash of hits as on Tuesday then anything's liable to happen.

A short workout just before the Giants and Senators took the field sufficed for Skipper Niehoff's gang Tuesday at! then they settled back to watch what the two big league

Tuesday at 1 then they settled back to watch what the two big league teams would do.

They saw plenty. For one thing they saw Andy Cohen, "John's Jewish Posy," bloom all over the place with two resounding triples to deep centerfield and a single out of four appearances at the plate. Young Mr. Cohen handled himself very well around the keystone, though he didn't have much chance to show whether he could really

chance to show whether he could really The thing started off like it was going to be just another one of those ball games. The Giants, in their first, went out in very quiet order. Hayes, second man up for the Senators, got a hit, but was forced at second by Judge. In their second, the Giants got three men as far as home plate. One of them struck out, one popped to third and the other flew out to

Score.
Then, in their second, the enators scored a run when Babe Ganzel, last year with Birmingham, doubled to left field, was sacrificed to third by Bluege and came home on a passed ball. Following that, Gillis, of Alabama football and baseball fame, tripled, but was out in a chase between third and home.

Cohen tripled and Roush singled to

score Cohen in the third, and that tied things up, but not for long. The next inning Mr. William Ter-

The next inning Mr. William Terry, hard-working first baseman of the Giants, doubled, came home on a double by Harper, who scored on Cohen's second triple of the day.

And so it went. The Giants continued to hit the ball with reckless abandon—they got 13 hits off the slants of old man Fred Marberry, toiling on the mound for Washington ing on the mound for Washington-

slants of old man Fred Marberry, toiling on the mound for Washington—and added a run or two during the ensuing innings until, when they had their last bat, the total had reached eight. Out of their 13 hits, the Giants collected three doubles and four triples. Which might be indicative of hitting power and probably is.

Trouble.

The Senators got enough hits—10 of them—but they didn't get enough of them in any one inning. Washington had eight men left on base against three for New York. And the way to win ball games is to score men and not leave 'em parked on the sacks.

Travis Jackson, of whom Mr. McGraw recently made his annual statement that Travis would be the best shortstop in either league this year, played yesterday in a fashion that would bear out Mr. McGraw's utterance. He ran all ever the lot to scoop up grounders and rob Washington players of singles. And it would be safe to imagine that Mr. Bill Terry, on first base for New York, was quite cognizant of the fact that someone had been thrown out at first, because Travis was pegging 'em like bullets Tuesday.

Tuesday.

It was a very good ball game and a very good crowd was on hand to watch it. With fair weather, which has prevailed for the past few days, there should be a good representation when the Crackers play Brooklyn this afternoon.

Babe Ruth Hits His First Homer

Chattanooga, Tenn., April 3.—
(P)—Babe Ruth hit his first home run of the spring training season in the eleventh inning of a pitchers' battle here today, but the Chattanooga Lookouts nosed out the New York Yankees, 3 to 2 in the trailfth inning.

A Great Shortstop.

have, gentlemen, a shortstop than which there is no better or not much.

Just one play in that Giant-Senator scrap Tuesday is sufficient to prove this assertion so far as we are concerned. Gillis hit the ball to the Giant shortstop and it took a bad hop at the edge of the sod. Travis Jackson succeeded in knocking the ball down but it seemed that Gillis would be safe at the initial corner. That conclusion was entirely natural, but reached without consideration for the great arm hanging on the right side of Travis Jackson's lanky frame. He ran forward several steps where the ball had bounced off his chest and Gillis was out at first by two steps. If anyone saw that ball on the way to Terry's glove he or she will never need to visit an eye specialist. It was like the strike of a snake, almost as fast

Collegians.

The University of Alabama and the Birmingham Barons were well epresented in the lineups of the two teams at Spiller's field Tuesday The university was represented by such illustrious alumni as Grant Gillis, Andy Cohen, Red Baines and Hayes. Three of these and Babe Ganzel played with Birmingham last season. Bobby Reeves, former Tech star, was with the Senators but did not play.

Just Another Game Lost.

The poor Yanks have gone and done it again. This time Chattanooga beat them 3-2 in 12 innings, even though the mighty Bambino did get his first home run of the exhibition

The more this thing happens the more one is constrained to wonder it doesn't mean something after all. It doesn't seem possible that the Yanks could play as many games as they have this season with the teams they have without winning at least half their games. Perhaps the Yanks are resting. That's be the excuse, anyhow, until the season starts. After that they will have to get a new alibi if one is needed. Somehow we can't believe that they will need such an alibi when the calendar turns

What, Mr. Ruth?

Hy Stericks, the man without principle and with brains to match, just wandered into the office covered with dust and bunions. "What's up. Hy?" we asked with some concern for his apparent fatigue. "Got a great interview with Babe Ruth, the baseball player," he replied, believing that his qualification

"I had to chase him to Chattanooga to get it and walked back just for exercise, but I got the greatest interview in the world," he continued, with the light of conquest gleaming in his one good eye.

Here's the first part of the interview as presented by Mr. Stericks-the last part is unprintable, thank you:

Ouestion-"What do you think of Tolstoi?"

Answer-"Well, I never batted against him, but any of 'em can be hit if your timin' is right."

Q-"Who do you think the next president will be?" A-"Barney Bernard's doin' pretty well. Don't think we'll need

new one for a while." O-"What do you think of the oil scandal?"

A-"Thought that was oil over" (with a sly smile). O-"What is your opinion of the fourth dimension?

A-Well, you'll have to talk to my attorney about that."

O-"Do you expect to lead the leagues in home runs this season?"
A-"You can quote me as saying that if somebody doesn't beat me will lead both leagues."

Most of the reverse gear, which must be installed on the giant iron steed to make it comply with rules and regulations of the American Au-

The beach, which has been in bad condition for several days, showed little signs of improving today. Unless the course does improve within the next week or 10 days, Keech said, his attempt to shatter the present record probably would be postponed for 30 days.

As soon as the beach improves Keech said he probably would make several preliminary trials to make sure the giant car was in perfect mechanical condition, before setting out on his attempt to bring the record back to this country.

The semi-final, an eight rounder, should prove to be one of the bouts on the program with Casey Jones meeting Tommy Oglesby, who, up until a few weeks ago, fought under the name of Battling Stein. These lads have met before, and Mayson says that their Friday night round at fisticusfing will be in the nature of a grudge bout. Both are good scrappers and should make a battle out of the thing. Casey steps in and slugs when he sees an opening, while Oglesby is always tearing in, taking and giving hard punches.

One thing that is swelling the sale is the popularity of both participants in the main affair. Attaway is considered something like a home-town product, although he is from Gainesville. But most of the husky scarpper's fighting has been done here, and the people like to see him.

New York, April 3.—Inactivity marked raw sugar today. Buyers were inclined to limit operations and await developments. Prices were unchanged with a scale of 20,000 bags of Philippines, due the end of the month at 4.61, and 10,000 bags of Cuban. prompt shipment at 2.72 f. o. b. Cuba, equal to about 4.65 delivered.

Early steadiness in raw futures was followed by reactions under heavy general liquidation. promoted by press reports in Cuba quoting a paragraph from President Machado's message to be read at the next session of the house of representatives, stating that it seemed drastic measures, such as the restriction of production, were over, and other measures would have to be taken. These reports were taken to mean there would be no restriction next year and promoted considerable liquidation by previous buyers. Shorts covered on the decline, but rallies were slight and met increased offers, with final prices at the low of the day and at net losses of 4 to 6 points. Approximate sales, 42,700 tons. May closed, 2.78: July, 2.87: September, 2.96: December, 3.03: January, 2.91: March, 2.83.

Refined was unchanged from 5.80 to 5.85 for fine granulated, but most refiners announced they would advance to 6 cents at the opening tomorrow. This stimulated better inquiry and more new orders were reported to have been placed.

able cables and dry weather in the rains in the southwest and rumors of a small boll weevil survival in Oklahoma.

After showing net losses of about 10 to 17 points, the market rallied on publication of the official weather details showing only light showers at a few points in southeast Texas. The greater part of the early losses was recovered, but demand was attributed chiefly to covering by recent sellers, and the market eased off again during the afternoon. Lowest prices of the day were touched in late trading, when May sold at 19.27 and October at 18.91. Last prices were at about the lowest of the day.

The dealers signified the belief that the whole question of equipment trust financing should be reconsidered carefully before the interstate commerce commission issues a permanent order. Mr. Nye said that he believes the commission still considers its recommendations of competitive bidding for equipment trust securities as experiments.

Cottonseed Oil.

New Orleans, April 3—The cotton oil futures market felt liquidation today owing to lard and cotton and to the approach of the long Easter holiday. Prime summer yellow oil closed at 9.40, down five points and prime crude closed at 8.50@.8c2j. Futures closed steady, April 9.45; May 9.55; July 9:82; September 10.03; October 9.93.

New York, April 3—The cottonseed oil market was more active and distinctly easier today, closing 9 to 21 points lower on further May liquidation and scattered selling in sympathy with the reversal in cotton and the upset state of lard. Refiners absorbed the May offerings and sold later months. Sales 23,100 barrels. Prime crude 8.50; prime summer yellow spot 9.70; April closed 9.70; May 9.86; July 10.14; September 10.40; October 10.35.

New York, April 3.—Cotton goods were steady today with fair demand for filling-in lots and printed wash fabrics and miscellaneous lines of domestics. New summer silk prints, tub silks and fancy taffetas sold more freely. Burlaps advanced from 4 to 5 pence at Calcutta on heavy weights. In the local market light weights are wanted and have been advanced slightly. Outerwear for women was quiet.

able weather. Manchester cables encouraging, spinners' and manufacturers' position improved.

The weather bureau report 'Temperatures were near normal along gulf coast and in North Carolina and considerably above normal throughout the remainder of the belt. Light scattered showers fell in southern Texas.

The impression prevails that fertilizer tag salea returns to Secretary Hester to close of March, report on which is expected this week will likely be rather large. Returns August 1 to close of February showed sales of 1.668,152 tons against 1.298,847 for the same time last season and 1.852,101 for the same period the season before last.

There was much realizing on the assumption that fertilizer returns would probably make a rather bearish showing, but since the market has declined already, we doubt if the report when issued will have much effect on values.

Meanwhile the weather outlook is unfavorable for greater portion of the belt and the boil weevil emergence report, yet to be released, has to be reckoned with.

As to this year's probable acreage, returns to the Garside bureau, Boston, indicate an average increase of 6 to 8 per cent over last essaon, but returns to a prominent Montgomerry, Ala, firm indicate an increase of only 3 to 5 per cent.

This afternoon the market recovered some-what owing to apprehension over the probability of rains, in the interior, where not needed, especially in the central and eastern belts.

ORVIS BROS & CO.

New York, April 3.—(Special.)—There were cross-currents in today's cotton market with liquidation finally dominating all other features. Liverpool was stronger than due: demand there was followed up by demand here on their cable orders. This imparted strength to our opening prices. There was an unconfirmed private repert that examination of weevil cages in Oklahoma City and Stillwater, Okla., disclosed all weevils dead.

This has some influence. Additionally there was a report of two to three inches of rain in south and southwest Texas and that caused selling. Government figures did not hear out this private statement and a covering movement developed immediately before and on the close there was concentrated liquidation and that produced lowest prices. The government weevil report is expected at any time but it was not learned when it will be issued. July Liverpool due, 10.21.

Since there were rumors of another increase in the rediscount rate at Thursday's meeting, the market can be asid to have acted well. Industrials are meeting realizing, however, and we think some of them will react further from present levels before there is much of an advance.

STOCK OPINIONS.

Fenner & Beane: Declining activity on continued high money rates and wild movements in specialties give impression of great irregularity.

Hornblower & Weeks: It is probably going to be difficult for the industrial stocks, which have been market leaders recently to consolidate their advances again in any substantial way.

F. B. Keech: The market is quite thin in some places, and should selling take place in volume a bad break might take place.

The late afternoon was enlivened by a further run up in Radio and a spectacular advance of 30 points in Wright Aero, probably based on the small floating supply and a strong technical position due to a large short interest.

Bullish activity in rails and oils, the latter in consequence of a government report showing a substantial advance in gasoline consumption, confirmed our favorable attitude with regard to these groups.

In view of the improving condition of the sugar industry, both raw and refined sugar having shown a steadily rising price trend for the past few weeks, we again repeat our bullish recommendations with regard to the better situated stocks of this industry, particularly Cuban American and South Porto Rico Sugar.

New York, April 3 .- (P)-Fraction al irregularity developed in today's bond market as profit-taking gathered 116 and market as protections of the list.

1814 force in many sections of the list.

1804 There were, however, a number of good advances and a few issues again good advances and a few issues again to new high levels for the climbed to new high levels for the year. Time money rates were unchanged, and the new offerings fell off sharply after yesterday's spurt. The slowing up of business was attributed largely to the disposition of many traders to limit their commitments at the approach of a recess.

.The new St. Paul bonds were offered in rather large amounts, but rerered in rather large amounts, but re-ceived fair support which held reces-sions to small fractions. Seaboard liens likewise eased on realizing and several of the semi-speculative mort-gages' sustained large fractional

Reading 41-2s, responding to the strength of the company's stock, advanced 13-8 points to a new 1928 peak and International Railways of Central America sold at 96 for the Central America sold at we for the first time this year after a gain of 11-2. A few of the public utilities continued to gain ground, including Federal Light and Traction 6s and some of the New York traction issues. Ohio Public Service 7s, however, were

heavy.

Convertibles again supplied the most action in the industrial group. International Paper 5s advanced more than a point and Anaconda and Andes Copper liens continued active, Liquid Carbonic 6s dropped back a point and Kayser 51-2s lost all of a 11-4-point gain.

Copenhagen 5s led the foreign list, Copenhagen 5s led the foreign list, reaching a new peak above par on the eve of offering of the new \$55,000,000 Darish loan. New peaks also were established by Tokyo 5s and Budapest

sixes.
Federal government securities were quiet and steady.

Naval Stores.

New York, April 3.—There was an irregular price movement at the opening of the stock market resulting partly from the heavy selling in the last hour yesterday and partly from the bearish monthly bulletin of the National City bank on the outlook for the stock and money market. After the irregular opening the stock market again turned upward under the leadership of Wright with Curtiss following. Speculative Wall street in its present frame of mind is likely to ignore the record-breaking brokers' loans reported today by the stock exchange. This is probably accounted for by the clean bill of health given the brokers' loans by the governor of the federal reserve board. U. S. Steel Dividend. The price of steel common at 145 for employees announced today is considered bullish. Last year the price was \$117. It was the bears, however, who were responsible for the most sensational bull stock market witnessed beginning early in March. It was short covering in other stocks, the price, advances thus brought about being followed by buying of long stocks. A stock market with no outstanding short interest is not in a technically strong position. It is the bears who support the market in any sudden unexpected break in prices, buying stock in open market to return borrowed stocks, thus completing their short sale. Call Money Steady. Call money again opened at 5 percent but did not advance to 5 1-2 as was the case late yesterday. Speculative Wall street arpeared to ignore

The upward price movement then became sensational. Jumping points between sales 130 was touched around 1:30 after which there was a sudden break of 8 points. In the early trading in Wright, Wall street's attention was called to a report of a government official to the effect that 4,000 flying machines of the government were in need of new engines. Later in the day when Wright was jumping points between sales, rumors were widely circulated that Ford and others were fighting for the control of the company. The National City Bank began to make public these monthly bulletins a quarter of a century at when Frank Avanderlip left the United States treasury to handle this end of the bank's business. During the past twenty-five years few of the banks' monthly bulletins have contained warnings, Vice President Roberts, of the National City Bank, in charge of the

Chicago, April 3.—(P)—Federal authorities tonight maintained the upper hand over Chicago police in a clash over efforts by federal agents Ormond Beach, Fla., April 3 .- (A) John D. Rockefeller ended his winter clash over efforts by federal agents to clear up the turbulent atmosphere before the primary election of next Tuesday and make preparations to avert violence at the polls, but did not think or act quickly enough to pre-vent outbreaks during an election in vacation here today by defeating his life-long friend, General Adelbert Ames, in an eight-hole golf match and then bid good-bye to acquaintances before taking a late afternoon train back
to his home in Pocantico Hills, N. Y.
Appearing on the course, in high
spirits and apparently in the best of
health, the SS-year-old millionaire
played one of his best games of the
year. He defeated the 90-year-old civil vent outbreaks during an election in the suburban municipality of Cicero. In that city several democratic poll workers were slugged by persons said to be aligned with "Scarface Al" Capone, who has been a leading beer baron around Chicago ever since he came west from New York city. Some war general seven up on the eight-hole round and made a number of ex-cellent shots, which pleased him of those attacked even averred that Capone himself dashed through the streets of Cicero to see that the elec-

Once during the game the million-aire topped his ball, but he was not displeased with the shot. "This golf game is just like life," he said. "You have the good and the bad all mingled together." After the match, Mr. Rocke-feller stopped to bid good-bye to a little crowd of spectators that had gathered at the last green, and in partgathered at the last green, and in parting gave several of them his custom-ary gift of a 10-cent piece.

Seeing a negro attendant of the golf course standing off to one side, Mr. Rockefeller went over and bid good-bye to him, also, and said he hoped directly at the bottom of all bombings, assassinations and other violence here in recent months.
